

## 2008 FEHB/FSA/FEDVIP Open Season

November 10 - January 31, 2009

The Open Season election period for Federal Health Insurance (FEHB), Federal Employees Dental and Vision Insurance Program (FEDVIP), and the Flexible Spending Accounts (FSA) has been **extended until January 31, 2009**

Open season is your opportunity to evaluate your insurance needs for the coming year and make changes to your health insurance plan(s). You may examine health, dental, and vision insurance plans to meet your needs. In addition, you can take advantage of the money-saving FSA program.

During Open Season, employees may enroll, cancel, or make changes to their FEHB coverage for 2009. In addition, employees can elect for the FSA program for 2009. The FSA is an excellent way to save money on out-of-pocket dependant and health care expenses. Please remember that FSA requires a new election each year as participation does not roll over from one year to the next.
